PHOTOGRAPHS EXPLORE TIME, FAITH, PLACE AND SPIRITUALITY

Odyssey: The Photographs of Linda Connor Now Open at Phoenix Art Museum

PHOENIX (December 1, 2008) – In Linda Connor’s photographs, even the humblest subjects assume a visual radiance. Both a rock in the desert and an ancient temple receive equal treatment through Connor’s transporting lens. Her photographs reveal the essence of her subjects, yielding a sense of truth and timelessness. Odyssey: The Photographs of Linda Connor on view now through March 8, 2009 at Phoenix Art Museum, is an aesthetic journey through the artist’s worldly pursuit of diverse and compelling subjects. This comprehensive exhibition represents thirty years of photographs and Connor’s extensive work in India, Indonesia, Turkey, Cambodia, Egypt, Tibet and the American Southwest.

“Connor’s engagement with global cultures is particularly timely,” commented Rebecca Senf, Norton Family Assistant Curator of Photography, Phoenix Art Museum. “By contemplating the sacred, she promotes heightened attentiveness to that which is ultimately unknowable but infinitely creative. Above all, her work celebrates the interconnectedness, intricacy and beauty of the world.”

An internationally renowned photographer, Connor embraces a wide range of subject matter, often capturing sites of mystery and contemplation that connect the physical and spiritual world. Just as sacred art evokes deep meaning without explicit explanation, Connor hopes her photographs serve a similar metaphoric function. Her photographs also capture elements of everyday life, such as the purposeful way people arrange their surroundings or the power of light to transform a space.

Connor’s technique is very distinct. A large-format view camera allows her to achieve remarkable clarity and rich detail. Her prints are created by direct contact of the 8x10-inch negative on printing-out paper, exposed and developed using sunlight. Toned and fixed with gold chloride, the prints have a warmth, luminosity and delicacy seldom found in standard photographic printing.

Odyssey presents 96 photographs and includes some of Connor’s best known work from the past three decades, along with more recent works that have not previously been on view. Connor was personally involved with many aspects of the presentation, including the sequencing of the images to guide viewers into making unexpected associations, providing a more poetic way to view her images. The result encourages viewers to enter into a personal photographic odyssey.

“Odyssey: The Photographs of Linda Connor presents not only the opportunity to see Connor’s amazing photographs, but to see them as the artist intended them to be viewed,” commented Senf. “This exhibition is an offering of Connor’s artistic vision.”
